

clubrooms in birmingham airport

Architect: InsideOut Architecture

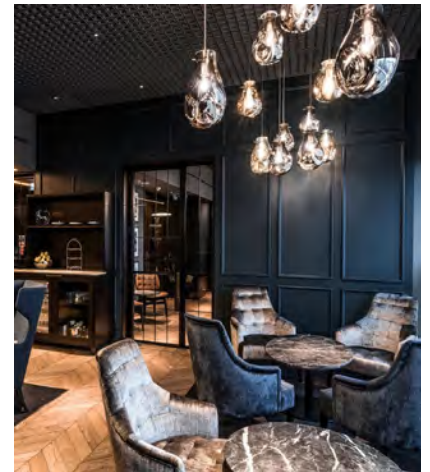

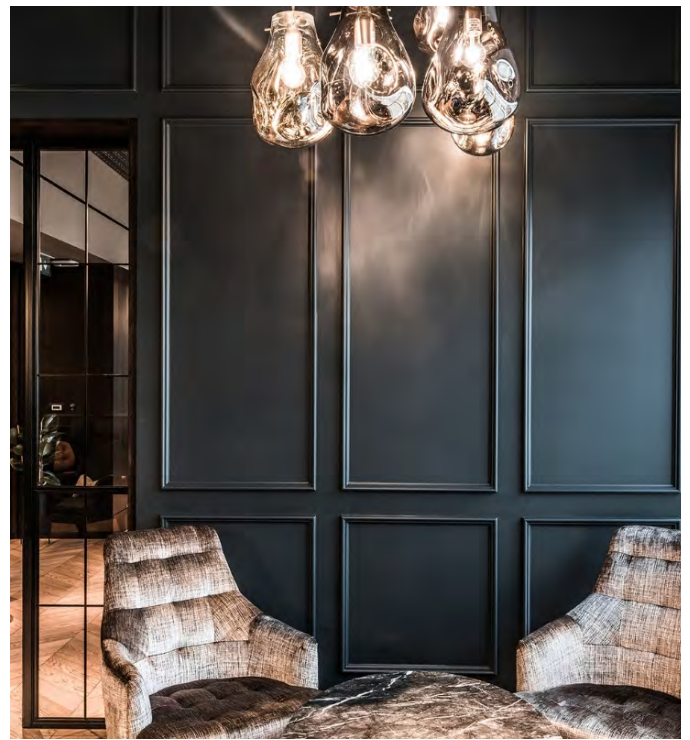

Year: 2018

Photo: Perry Graham

Clubrooms in Birmingham Airport by InsideOut Architecture is a space that was developed with the user experience at the focus of the design process. With three spacious rooms filled with Bomma's SOAP collection, this lounge offers both sophistication and tranquility. This exclusive lounge offers a calm atmosphere away from the bustle of an airport environment. Luxurious and contrasting materials, elegant room divisions, and attention to detail were central in the creation of these spaces.
